Crow

Once A Thirsty Crow

I'm so thirsty, I should
find somewhere to
drink water.

looking for some water to drink and found a pot

what is that ?
OH ! Looks like A pot
filled with water.

But Crow's beak cant able to reach the water in the pot

I cant able to drink the water in the pot as my beak cant reach the water level.

Crow gets an idea

It filled the pot with pebbles and drink water as much it wants

water level is rising now,
I can drink as much
water as I want to.

Crow was thankful of God and it went back home.

Thank God ! I'm not thirsty anymore , and now I can go home and meet my family.
